Dear Trail Friends,

We hope that you and your families are safe and healthy during these extraordinary times.

We have been in touch with our partners at the various race venues and they are keeping us up to date on their status. At this point, they are unable to confirm whether or not the trails will be open to use on race day. We also have to keep in mind that there could be new restrictions or regulations from the government with regard to physical distancing/crowd gatherings.

To that end, we are going to pause race registration for our first event, the Rainbow Trail Run, scheduled for July 11. Our September events, Island Lake Classic and Chase the Coyote Trail Race, are still open for registration and we will continue to monitor any adjustments as necessary.

If we are required by the government to cancel any of our events, rest assured, we will be offering you a variety of options to use your registration. One of which will be a virtual run. If you haven't already signed up for one of our races, the virtual runs are available on our Race Roster event pages.

Once we have more concrete information from our partners, we will communicate these options to you via email, Facebook, our Race Roster race pages and our website www.gottarunracing.com

Staying active, while maintaining a social distance and obeying government regulations, is imperative. We all run for different reasons but can agree that the benefits to our mental health are immeasurable.

Best regards,

Norman & Jodi
